## EDUCATION

---

### LAUTECH,

*Bachelor of Technology in Computer Science*

Feb 2020 – present | Ogbomoso, Nigeria

### BuggyBillions, *Frontend web development*

Ogbomoso, Nigeria

## PROFESSIONAL EXPERIENCE

---

### Sunmence Solution, *Frontend Developer*

Sep 2022 – Mar 2024 | Ogbomoso, Nigeria

- Developed and maintained frontend applications, improving website responsiveness and performance.
- Implemented intuitive UI components using **React.js**, **Tailwind CSS**, and **Bootstrap**, enhancing user experience.
- Collaborated with backend developers to integrate **REST APIs**, enabling real-time data processing.
- Led frontend development for projects such as **Pinleaf Real Estate** and **Nimelssa National**, ensuring seamless navigation and accessibility.

## PROJECTS

---

### Eport Global Logistics (Contract), *HTML, CSS, Bootstrap and JS*

- Led frontend architecture for a logistics company, developing user-friendly dashboards for both admin and customers.
- Integrated API services to enable real-time shipment tracking and data updates.
- Improved UX by designing clean interfaces that streamlined user navigation, leading to a **25% reduction in support queries**.

### Frontend projects in sunmence solutions

- Designed and developed **Pinleaf Real Estate** and **Nimelssa National**, creating scalable and visually appealing UI components.
- Ensured cross-browser compatibility and mobile responsiveness, improving engagement across various devices.
- Implemented interactive animations using **GSAP** and **AOS**, enhancing user experience.

### Watchables, *React.js, Appwrite, RESTful API* 🔗

- Developed a movie web application using **React.js**, integrating the **TMDb API** to fetch real-time movie data.
- Implemented **Appwrite** as a backend database to track and store the most searched movies.

- Designed a **dynamic trending section** that updates based on user searches, enhancing content discovery.
- Optimized API calls for efficient data retrieval, reducing load time and improving user experience.

## SKILLS

---

**Programming Languages** — HTML, CSS, JavaScript, **Frameworks & Libraries** — React.js, Tailwind CSS, Bootstrap, GSAP, AOS, Swiper.js, Appwrite, **Developer Tools** — Git, VS Code, Netlify

## CERTIFICATES

---

- Empower Ladokites ( Vocational Training and Skill acquisition programme) on Frontend Web Development
- BuggyBillions certificate of completion on frontend web development
